

## **AFTERCARE**

Aftercare is an especially important part of the treatment.

*\*If you will not follow the advice given by your artist, some complications might emerge.*

### **STEPS:**

#### **Day 1 – 2**

Use a clean tissue every few hours to pick up the clear fluid that is coming out.

This will help reduce scabbing. The fluid forms the scabs.

#### **Day 1 – 10**

Starting on the night of your procedure, wash your brows every morning and evening with antibacterial soap with your pointer finger in a circular motion. Lightly rinse off with your fingers.

Dab dry and do not rub!

Avoid use of abrasive washcloths or sponges.

Allow eyebrows to completely dry before applying ointment.

Apply the aftercare ointment with freshly washed hands or a Q-Tip. Only a thin layer.

### **REMEMBER!**

**DO NOT rub, pick, or scratch the treated area.**

**Let any scabbing or dry skin naturally exfoliate off. Picking can cause scarring and pigment loss!**

**COMPLETELY avoid** direct sun exposure and tanning beds for a minimum of 4 weeks after your procedure. Direct sunlight can cause the pigment to change color while it is healing and can also cause hyper pigmentation and scarring.

**Avoid** pool, sauna, steam rooms, hot showers and/or hot baths for 2 weeks.

**Avoid** sweating for the first 7 days. Any physical effort, gym, hot weather, any other activity that may cause sweating through or on the brows will expel pigment from the dermis producing poor results.

**Avoid** sleeping on your face/brows for the first 7 days.

**NO makeup** to be used on the treated area for 10 days.

**NO facials, chemical treatments and microdermabrasion** for 4 weeks.

**NO Botox** for 4 weeks. We recommend that it is best to wait until after your touchup heals to get Botox, as an educated injector will take your new brows into consideration when choosing where to inject.

**Eyebrow tinting** should not be undertaken for 2 weeks after your procedure.

**Avoid** Retin-A, Chemical Peels around the brow area once healed.

*\*After 10 days, once the area has healed completely, consider using sunblock when going out in the sun to stop the color from fading.*

# Brows Jungle

## **Day 1**

I'm in love with my new brows!

## **Day 2 - 4**

I don't like this color, it's too dark!

## **Day 5 - 7**

My brows are patchy and peeling!

## **Day 8 - 10**

... my brows are GONE!

## **Day 14 - 28**

Finally!  
They're coming back!  
And look very natural.

## **Day 42**

\*after touch-up  
They're beautiful!
