

## **BEFORE THE PROCEDURE**

**\*A \$50 NON-REFUNDABLE BOOKING FEE IS REQUIRED TO RESERVE YOUR APPOINTMENT.  
THIS FEE WILL GO TOWARDS YOUR BROWS PRICING.**

\*\* Permanent cosmetic enhancements require multiple application sessions.

\*\*\* Be prepared for the color, and intensity to be significantly sharper and darker immediately after the procedure. The work from your initial procedure will lose between 30%-60% of the color and intensity as the skin heals. You will need (and want) to come back in for a touch up. After your touch up, the tattoo will again be very dark, but as it heals, it will not fade as drastically as the time before.

\*\*\*\* **Absolutely no guests (including children) are allowed during the appointment.**

### **Procedure is not recommended for clients with the following conditions:**

- ✓ Pregnant or nursing
- ✓ Botox or dermal fillers in the brow or upper face area within the last 3 months
- ✓ Taken actuate in the past 1.5 years
- ✓ Diabetic
- ✓ Autoimmune disorders
- ✓ Organ transplant
- ✓ Chemotherapy in the past year
- ✓ Contagious diseases or viral infections
- ✓ Epileptic as seizures
- ✓ Eczema, Dermatitis, Acne, Rosacea.
- ✓ Within 7 days of having their eyebrows or hair on forehead waxed
- ✓ Within 14 days of electrolysis or laser hair removal on their forehead
- ✓ Within one month of a Chemical Peel, microdermabrasion, dermabrasion, mesotherapy, or any other intense treatment
- ✓ Active sunburn or frostbite
- ✓ Current use of products with ingredients such as alpha or beta hydroxyls (Retin-A products). AHA skincare products Discontinue use 14 days prior to procedure
- ✓ Use of blood thinning drugs or blood pressure medications
- ✓ History of keloid or hypertrophic scarring
- ✓ Allergies to ingredients in topical numbing creams, metals (iron, nickel, etc.)
- ✓ **COVID-19 vaccines. We cannot tattoo between the 1<sup>st</sup> and the 2<sup>nd</sup> dose of the vaccine and you need to wait 14 days after the 2<sup>nd</sup> shot.**

**If none of the conditions, procedures, or product use on the prior page apply to you, then please read the following:**

- ✓ Do not drink coffee, or any caffeinated beverages the day of your treatment. Caffeine is a stimulant and will cause your procedure to be more painful.
- ✓ Do NOT drink any alcohol 24 hours prior to your procedure.
- ✓ Do not take aspirin, Niacin, Vitamin E, or Ibuprofen during 24 hours before treatment.
- ✓ Do not tint your eyebrows 1 week prior to treatment. Not tint your eyebrows or dye your skin for 2 weeks after procedure.
- ✓ Do not tan or sunbathe the week before your appointment. We cannot Microblade on sunburned skin.
- ✓ Since we are working with the delicate skin on your face, the area around your eyebrows may be swollen or red. You are advised not to make social plans on the day of your enhancement if this is something that will bother you.
- ✓ No excessive Eyeshadow, Foundation, or brow makeup
- ✓ Do NOT discontinue any medication before consulting your doctor.
- ✓ The National Blood Service does not accept donations of blood for 1 year after a permanent cosmetic enhancement.

I, \_\_\_\_\_ (PRINT NAME), acknowledge the above instructions and agree to tell my Microblading technician if I am not compliant to any of the items listed above.
